Sub: Procurement of Establishment of 04 Nos of Disease & Diagnostic Testing Laboratories through GeM Portal.
Ref GeM bid No; GEM/2025/B/6956077 dated: 06.012.2025

Corrigendum

In reference to the above-mentioned GeM bid, and as per the provisions of the bid document permitting pre-bid enquiries w.e.f. 08.12.2025, four firms submitted through the GeM portal that procuring four units of each item is not practically feasible due to prevailing market rates and the existing budgetary limitations of the Department. Consequently, the Department is unable to meet the original requirement within the available budget.

Accordingly, the matter was examined in detail, and after thorough discussion and approval of the competent authority, the requirement is modified as follows: two components per laboratory instead of four components per laboratory as mentioned in the bid document, considering the financial constraints. **The revised requirement is as follows:**

Sr. No	Components for each laboratory	Nos
1.	<ul style="list-style-type: none">Fish disease investigationAnalysis of water parameters essential for fish survival and culture	2 2
2	<ul style="list-style-type: none">Analysis of Trout Feed ingredientsTesting of soil texture and quality	2 2
	Total	08

All other terms and conditions of the bid shall remain unchanged.

Purchase Officer (GeM)
Fisheries Department
